PEONIES

AUTEN ORIGINATIONS

STANDARD LIST

Edward Auten, Jr.

PRINCEVILLE, ILLINOIS

We send out healthy roots of highest quality, true to name, good 3 to 5 eye divisions, properly cut to insure quick development into fine new clumps. Last fall we shipped roots far and wide, and received many compliments on them, and not one complaint. Bloom this spring was the finest in years. We cannot impress upon you too strongly the importance of buying healthy roots, and we take pride in maintaining our planting of seven acres in the best possible condition. At the same time our prices are very reasonable.

TERMS—Cash with order. Prices include delivery in U. S. east of Rockies on orders of \$2.50 or more. Under \$2.50 add 25c for postage and packing. Pacific coast orders under \$10.00 sent express collect. Shipment, fall only, beginning September 1. We make no warranty as to growth as we do not control conditions nor care in our customers' gardens.

DIRECTIONS

Plant Peonies in good, well drained soil, in full sun if possible, and away from trees, buildings, etc. Do not plant where a peony has been before, unless all old soil is taken out and replaced with fresh. Plant 3 to 4 feet apart; set so that the eyes point upward and are 2 to 3 inches below the top of ground (very important). Give each root 2 quarts of water when planted, and then make a 6 inch mound of dirt above ground level to prevent heaving, scrape mound away late next spring.

IMPORTANT—Open your package of roots immediately when they arrive. Plant as soon as possible but if you have to wait a few days, either keep moist in open box in cool cellar, or better yet, bury in garden.

The Auten Originations

During the nineteen years in which I have been developing new varieties of Peonies, I have had several definite aims in view. First, to get red Japs, red singles and red doubles and semi-doubles that were brilliant and clear in color, and that held that color until the blooms were gone.

In this I feel that I have been very successful with the Japs, singles and semi-doubles. Fading has been reduced to an almost negligible minimum, and many different shades of brilliant red have been obtained. At the same time, by growing most of the new Japs and singles of other originators in my own fields for comparison, and seeing what was exhibited at 11 of the last 13 National Peony Shows, I have been able to measure my own progress. As a result, I have come to feel that the Auten red Japs and red singles now lead all other lists in high quality. Nippon Beauty has been given the highest rating (93.8) of any red Peony of any type. Nippon Brilliant and Sword Dance show just as high quality in lighter shade. Goblin, Nippon Chief, Nippon Splendor, Nippon Warrior and the new Nippon Parade were all outstanding this year. In contrast, Instituter Doriat, which came from France heralded as the best red Jap, was dull and decidedly inferior. And Verdun, the red single from France, also claimed to stand at the top, could not compare with any one of a half dozen in the Auten list. Arcturus, Black Magic, Kankakee, Kaskaskia, Kewanee, Kickapoo and Witches' Dance were exceptional this year. Kewanee opened three days before Vera, yet was good after Vera was faded and ugly.

In red semi-doubles are some striking kinds. Dearborn and Daniel Boone held their color. Daniel Boone does not give a large number of stalks per plant, but the bloom is an aristocrat both in color and carriage. Uncle Remus, Tempest and Louis Joliet are good year after year. Seeking for red doubles, with no stamens, has been unusually disappointing. I have wanted especially to get a red double that would meet the demands of the cut flower trade, not only holding its color, but also opening out well from cold storage, lasting well and with long stem. I have some very fine ones still under trial, but have not yet offered a perfect red double variety. The three red doubles in this list all contain some purple, no more than, maybe not as much as the regular cut flower reds now in commerce. Mandarin, I believe, will prove exceedingly popular, Salem was good this year, and Morocco pleases many who really like the purple shades.

My white singles were chosen to meet the following standard—good substance, no pink seed pods, which to me are a very discordant feature, good upstanding plants, and a full range of season of bloom. Snow Sprite, White Perfection, Country Dance, Monticello, Morning Song, June Moon, Wedding Day, the whole list in fact, will prove a revelation to those used to the old Albiflora the Bride and similar ragged sprawly and unfinished kinds.

NOVELTIES. Here we have "Peonies that are different", colors and forms you would not dream could exist in a Peony. Some of them from their very nature fade at the end, but they are much admired and add great interest to any collection. Gay Paree is being most enthusiastically received. Nippon Princess, Monterey and Tarantelle continue to make friends. Red Emperor and San Diego are striking and bold. Alaska is liked unusually well by many, by some not at all. The four novelty red Singles are well proven.

I often wonder when the day will come that I can have all my new things in bloom on old clumps the same year, so as to see a sum total of these years of work. But increase is so slow one must always keep dividing as fast

as possible, and be content with seeing only a portion of the list any one year. This year some of the double pinks and whites were in their glory. Mary Auten on two year plants was just about all one could ask for in a flesh white peony, and what a glorious bouquet it made in the house! White Beauty, Prudence and Manoah showed their great delicacy and charm. Pink Solange gave enormous bloom on two year plants, in form an exact duplicate of old Solange, but a genuine pink shade. I wonder what it will do in Duluth, where old Solange is so very fine. Old Hundredth is not as large as Grace Loomis, but the center petalage is better, and there is distinctly more yellow in its creamy cast.
